

ASHUTOSH SHUKLA

Master of Computer Applications

Gender: Male

Date of Birth: 20/06/2003

E-mail : tp@nitt.edu

Contact : +91-431-2501081

Educational Qualification

Year	Degree/Examination	Institution/Board	CGPA/Percentage
2027	M.C.A	NIT, Trichy	07.49*
2024	B.C.A	Shri Gujrati Samaj Institue of Professional Studies, Indore	07.13
2021	Class XII	Ideal Academy, Indore, MPBSE	83.60%
2019	Class X	Ideal Academy, Indore, MPBSE	80.60%

Internship Experience

- Summer Internship at Visa:** May 2026 - Jul 2026
Worked with Spend Clarity Team, I began by conducting a comprehensive review of the technology landscape supporting the Spend-Clarity product, gaining a thorough understanding of its architecture, components, and integration requirements. Building on this foundation, I designed and developed a new microservice using Spring Boot and RESTful API principles, ensuring the service was scalable, maintainable, and aligned with enterprise development standards.
- Summer Internship training at Technorizen Software Solutions:** May 2025 - Jun 2025
This intensive training program equipped me with both theoretical knowledge and practical skills in AI/ML development, preparing me to contribute effectively to data-driven solutions and innovative AI applications in a professional environment. The comprehensive hands-on experience provided deep exposure to industry-standard methodologies and real-world implementation challenges, enabling me to develop the confidence and competency needed to deliver impactful AI/ML solutions in professional settings.

Other Projects

- Resume Analyser using Natural Language Processing** Jun 2025
Developed a Resume Analyzer using Natural Language Processing (NLP) to automate candidate-job matching by extracting key details from resumes such as name, contact information, and skills using pyresparser and spaCy's PhraseMatcher. The extracted skills are compared against a database of job descriptions to identify relevant job opportunities. For each job, the system calculates a match score based on skill overlap and presents personalized job recommendations to the user. It also highlights missing skills required for each job, enabling users to identify skill gaps and better prepare for targeted roles.

- Recommendation System with Hybrid Filtering:** May 2025
 Demonstrated strong skills in building hybrid recommendation systems using Count Vectorizer and cosine similarity for content analysis. The approach improves accuracy over traditional methods and effectively addresses the cold-start problem, making it suitable for e-commerce and streaming platforms.
- Interactive Personal Portfolio Website:** Mar 2025
 Developed a responsive portfolio website and integrated an AI chatbot to make it interactive, allowing visitors to engage with content through conversational queries about experience and projects.
- BrainyPic Battle** Mar 2025
 This project demonstrates successful integration of modern web technologies with educational content delivery, creating an engaging learning environment that combines entertainment with knowledge acquisition. The real-time multiplayer functionality encourages social learning while the visual-based approach enhances memory retention for young learners. The platform effectively bridges technology and education, showcasing the ability to develop child-friendly applications that promote interactive learning experiences.

Areas of Interest

- Data Structures and Algorithm
- Artificial Intelligence
- Machine learning
- Operating System

Technical Skills and Certifications

- Programming Languages : C, C++, Python, Java
- Tools/platform : Visual Studio, Jupyter Notebook, Google DialogFlow, Workato.
- Technologies : Numpy, Pandas, SciKit-Learn, Random-Forest, Matplotlib, Transformers, NodeJS, ExpressJS, SocketIO, SpringBoot.
- Certifications : C-Language (InfoBeans Foundation 2019)

Positions of Responsibility

- Volunteer, Version 2025, NITT:** Mar 2025
 This volunteer (Public Relationship Committee Member) experience significantly enhanced my interpersonal communication, persuasion, and relationship-building abilities. Working with diverse student populations improved my adaptability and cultural sensitivity while developing strong teamwork and collaborative skills essential for professional environments.

Extracurricular Activities

Sport Activities:

- Secured Third place in ACUMEN'25 Shadowland online gaming event, Organized by ACM.
- Secured Second place in March Past in **Sportsfete'24**- the inter department sports fest organized by NIT Trichy.
